## UNIQUE SELLING POINTS (USP)

### SLIDING HYPERFOCUS™

The sliding Hyperfocus™ optical system collects the LED radiance and distributes it with maximum efficiency from a perfect round floodlight beam to a highly intensive, long range spot beam. Just slide the head of the lamp for the correct light setting.

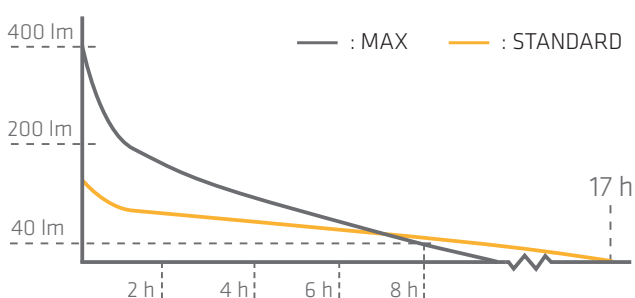

### RED WARNING LIGHT

The red blinking warning light on the back of the battery pack will make you visible from behind. The light can be turned on and off.

### VERSATILE PLUG SYSTEM

Exchangeable plugs give you better protection for your headlamp and cable. The plugs in the headlamp and battery pack will detach, if your cable gets tangled in or stuck on a branch.
